**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: in the specification page 1 line 5 --, now PAT 6,739,939-- has been added after "2002".

***Allowable Subject Matter***

2. Claims 8-14 are allowed.

***Reasons For Allowance***

3. The following is an examiner's statement of reasons for allowance:

Claim 8 has been found to be allowable over the prior art of record because the prior art fails to teach or suggest a toy top unit comprising: a driving means, a spin imparting means, a locking means, a rack belt, the spin imparting means is operated by linking it with a pulling-out operation of the rack belt inserted into the driving means, and when the rack belt is pulled out from the driving means, the locking means starts and the spin imparting means immediately stops, a linking portion to link the toy top with the spin imparting means, and the toy top, which spins by linking it with the operation of the spin imparting means, spins by inertia after the stopping of the spin imparting means and a linkage with the spin imparting means is disengaged, in combination with the remaining limitations of the claim.

Art Unit: 3728

Claim 9 has been found to be allowable over the prior art of record because the prior art fails to teach or suggest a toy top having a first magnet member removably mounted in the cavity of the main body member, a game board having a base member with a plurality of cavities across its surface and a surface member removably attached to the game board to extend across the plurality of cavities, and one or more second magnet members mounted in one or more of the plurality of cavities wherein the first magnet member provides a magnetic field that interacts with a second magnet member magnetic field to effect the movement of the toy top on the game board, in combination with the remaining limitations of the claim.
